

Just when the caterpillar thought the world was over...

it became a butterfly.

**Sometimes change is good.**

Many companies are worried about sustainability. AMGRAPH can help.

For more than 25 years, we've been a leader supplying high-quality flexible packaging while continually raising our standards for environmentally friendly manufacturing processes.

We'll work with you to develop a sustainable package at a reasonable cost. And, our statistical process controls reduce process variation, ensuring our packaging meets your most stringent specifications.

**Call AMGRAPH for the total package.**  
Change is good. We can help.
